LABORATORY SKILLS —

Study of laboratory techniques by Chemistry field:

Organic Chemistry Skills: Recrystallization, Extraction, Fractional distillation, Thin-Layer Chromatography (TLC), Column Chromatography. (October 2023 – June 2024)

Analytical Chemistry Skills: pKa determination, Wine analysis, Olive oil analysis, Conductometry, Analysis of K⁺ ions in water, Polarography, RPLC and HPLC Chromatography, GC-TCD and GC-FID gas chromatographies, ESI-MS Mass Spectrometry (February 2024 – December 2024)

Inorganic Chemistry Skills: Study of IR, UV-VIS spectra, Study of SEM – XRD diagrams, MOF Synthesis (October 2024 – April 2025)

Biochemistry Skills: Isolation of Chromosomal DNA, Western – blot analysis, Study of enzyme kinetics, Study of enzyme function, Study of plant pigments, Use of electrophoresis system. (February 2025 – June 2025)

Physical Chemistry Skills: Calorimetry, Phase diagrams, Reaction kinetics (UV-Vis), Electrochemistry (EMF, conductivity), Data analysis, IR & UV-Vis Spectroscopy. (October 2023 – June 2025)

EDUCATION

BSc in Chemistry, University of Crete (UOC), October 2022 – present, Heraklion, Crete, Chemistry Studies, Biochemistry Field. GPA: 7.44/10 (as of Feb, 2026)

Intern – Quality Control & Olive Oil Analysis | Savidakis S.A., July 2025 – Sept 2025 (3 months), Agia Varvara, Heraklion, Internship focused on olive oil chemical analysis and quality control procedures.

Ergazakeio Foundation Scholarship, 4-year scholarship awarded following a written essay competition (Academic Year 2022-2023).

1st Prize | 12th International Literary Competition: UNESCO Club for Literature, Arts, and Sciences of Greece (2023).

High School Diploma with Honors, GPA: 19.9/20 (Nineteen point nine) Graduation Year: 2021

ISO 22000:2018 Certification – Elements of Food Safety Management System (FSMS), Alison, Cer. Number 1461-53518069 (2025).

ISO 9001:2015 Certification – Quality Management System (QMS), Alison, Cer. Number 1907-53518069 (2025).

Basic Life Support (BLS) Certification, European Resuscitation Council (2019).

AI Skills Passport – EY & Microsoft (2025).

Teaching Climate Change in Secondary Education | Climademy, Seminar, University of Crete (2025).

Modern Laboratory Methods in Analytical Chemistry | KEDIVIM Tsaousi Long term seminar (2025).

Human-Centered AI in Education | E.DI.B.E.A. Lab, Seminar, University of Crete (2025).

Enhancing the Participation of Children with Selective Mutism in School | ESEAL, Seminar (Feb 2026).

BASIC SKILLS

Skills: Proficiency in using computational systems, analysis and processing software for laboratory data (**OriginLab**), organic compound design programs (**ChemDraw**), text formatting, presentation, and statistical analysis (**Microsoft Office**).

Languages: Excellent English language skills at level B2, upcoming acquisition of C2 level certification.

Interests: Writing, Photography, Tennis, Horse riding

PROJECTS —

Theoretical analysis of honey adulteration detection methods, Analytical Chemistry I, Supervising Professor: Chatziioannou Chrysovalantou-Anastasia, University of Crete (November 2023)

Presentation of Maxwell-Boltzmann speed distribution Experiment, Physical Chemistry Laboratory I, Supervising Professor: Papadimitriou Vasileios, University of Crete (November 2023)

Presentation of Chemistry Experiments for children, with the COG volunteer team, on the occasion of the event for 100 years since the founding of the Association of Greek Chemists, Center for Mediterranean Architecture (Chania) (September 28, 2024)

Presentation of Chemistry Experiments and experiential workshop for children, with the COG volunteer team and the Association of Greek Chemists, on the occasion of Panhellenic Chemistry Day, Lake Agios Nikolaos (March 9, 2025)

Presentation of Chemistry Experiments for children, with the COG volunteer team, on the occasion of the 2nd Children's Festival by "The Smile of the Child", Rethymno (September 20, 2025)

Representative of Savoidakis S.A., University of Crete Career Day 2025, Position: Special Associate, Heraklion Crete (October 31, 2025)

VOLUNTEERING

Chemistry Outreach Group (COG) | University of Crete, 2023 – Present, Heraklion, Greece, Member of the outreach group aimed at interacting with society and demonstrating the real-life applications of chemistry through experiments and presentations.

Volunteer Coordinator | DevFest Heraklion 2026, GDG Heraklion, Jan 24, 2026, Operational coordination of the volunteer team and conference flow management. Focused on logistics and real-time problem solving to ensure an optimal experience for 200+ participants.

Lead Volunteer Coordinator & Founder | Career Days 2025, University of Crete, Oct 31, 2025, Strategic organization and founding of the first structured volunteer team for the University Career Office (DoDiSta). Full coordination and training of volunteers, acting as the primary liaison between administration and corporate representatives.

Environmental Action Group | 3rd High School of Alexandroupoli, 2019 – 2021, Alexandroupoli, Greece, Participated in the waste oil collection team for recycling and biodiesel production.

RECOMMENDATIONS

Chatziioannou Chrysovalantou-Anastasia: Associate Professor (University of Crete), Department of Environmental Chemistry & Analytical Chemistry, Scientist at International Agency for Research on Cancer (IARC) - World Health Organization (WHO), LinkedIn: [linkedin.com/in/cchatziioannou](https://www.linkedin.com/in/cchatziioannou), email: c.a.chatziioannou@hotmail.com

Kouvarakis Antonios: Laboratory Teaching Staff, Organic Chemistry Division, University of Crete, Email: akn@uoc.gr

Papadimitriou Vassilis: Laboratory Teaching Staff, Department of Physical Chemistry (University of Crete), Visiting Researcher, NOAA-ESRL, Chemical Sciences Laboratory, Colorado, USA (University of Colorado), email: bpapadim@uoc.gr, Vassilis.Papadimitriou@noaa.gov (NOAA-ESRL, Chemical Sciences Laboratory, Colorado, USA)
